- Lined with fabric,zipper,coin compartment
- handmade
- Light weight,durable,flexible

Krajood (Grey Sedge)

Handicrafts Southern Thai mats made from the leaves of the krajood [??????] or *Lepironia articalata* plant, in the Sedge family. The mats are of high quality, both in terms of durability and aesthetic details. Originally, they were of plain color. As time went on, however, not only were colors added to them, but the mats themselves were adapted and made into many different products
